REVENUES

School Districts receive money from several sources. These sources are:

1. **STATE AID** –The budget is based on the State’s 2020-21 budget. State aid for the 2020-21 budget year is expected to be \$1,581,035 more when compared to the 2019-20 budget.
2. **OTHER INCOME** – Any income received by the School District other than State Aid, Fund Balance or Tax Levy is included under this heading. Examples of other income would be; BOCES revenue, interest earnings, sales of property and equipment, refunds of prior year’s expenses, gifts, rentals, fees, tuition, and Medicaid reimbursements.
3. **RESERVES** – The District maintains Reserve Funds established in accordance with guidelines established by the Comptroller of the State of New York.
4. **FUND BALANCE** – Funds which are budgeted but unexpended at the end of a budget year, and revenues which are realized in excess of those budgeted for the year, are available at the end of one fiscal year to be carried forward as fund balance.
5. **TAX LEVY** – This is the amount to be raised through local property taxes. The Board of Education desires to keep any increase in the levy as low as possible. For the 2020-21 school year, there will be a 2% increase to the tax levy set by the Board of Education in September 2020 for the 2020-21 school year.

SUMMARY 2020-21 GENERAL FUND REVENUES

The two main sources of revenue are the local tax levy and aid from the State of New York. For a number of years, the State has provided about 70 percent of the total district revenues. This year the estimated amount of aid totals \$93,169,795. This means that the local taxpayer will be paying approximately 27 percent of the district expense, while the State's contribution is 70 percent. Other local projected revenues of \$4,143,000 will also be committed to fund the new budget. This other revenue and fund balance represents 3.0 percent of the budget.

Instructional Expenditures for General Education are K-12 expenditures for classroom instruction (excluding Special Education) plus a proration of building level administrative and instructional support expenditures. These expenditures include amounts for instruction of students with disabilities in a general-education setting. District expenditures, such as transportation, debt service and district-wide administration are not included.

The pupil count for General Education is K-12 average daily membership plus K-12 pupils for whom the district pays tuition to another school district. This number represents all pupils, including those classified as having disabilities and those not classified, excluding only students with disabilities placed out of district. Pupils resident in the district but attending a charter school are included. For districts in which a county jail is located, this number includes incarcerated youth to whom the district must provide an education program.

Instructional Expenditures for Special Education are K-12 expenditures for students with disabilities (including summer special education expenditures) plus a proration of building-level administrative and instructional support expenditures. District expenditures, such as transportation, debt service and district-wide administration are not included.

The pupil count for Special Education is a count of K-12 students with disabilities for the school year plus students for whom the district receives tuition from another district plus students for whom the district pays tuition to another district. Students attending the State schools at Rome and Batavia, private placements and out-of-state placements are included.

Instructional Expenditures Per Pupil is the simple arithmetic ratio of Instructional Expenditures to Pupils. The total cost of instruction for students with disabilities may include both general- and special-education expenditures. Special-education services provided in the general-education classroom may benefit students not classified as having disabilities.

Total Expenditures Per Pupil is the simple arithmetic ratio of Total Expenditures to Pupils. Total Expenditures include district expenditures for classroom instruction, as well as expenditures for transportation, debt service, community service and district-wide administration that are not included in the Instructional Expenditure values for General Education and Special Education. As such, the sum of General Education and Special Education Instructional Expenditures does not equal the Total Expenditures.

INFORMATION ABOUT STUDENTS WITH DISABILITIES (2018 - 19)

Commissioner's Regulations require reporting students with disabilities by the percent of time they are in general education classrooms and the classification rate of students with disabilities. The source data for the statistics in this table were reported through the Student Information Repository System (SIRS) and verified in Verification Report 5. The counts are numbers of students reported in the least restrictive environment categories for school-age programs (ages 6-21) on BEDS Day, which is the first Wednesday of the reporting year. The percentages represent the amount of time students with disabilities are in general-education classrooms, regardless of the amount and cost of special-education services they receive. Rounding of percentage values may cause them to sum to a number slightly different from 100%.

This rate is a ratio of the count of school-age students with disabilities (ages 4-21) to the total enrollment of all school-age students in the school district, including students who are parentally placed in nonpublic schools located in the school district. The numerator includes all school-age students for whom a district has Committee on Special Education (CSE) responsibility to ensure the provision of special-education services. The denominator includes all school-age students who reside in the district. In the case of parentally placed students in nonpublic schools, it includes the number of students who attend the nonpublic schools located in the school district. Source data are drawn from the SIRS and from the Basic Education Data System (BEDS).

Similar District Groups are identified according to the Need-to-Resource-Capacity Index. More information is available on our NRC capacity categories page.

These enrollment data are collected as part of NYSED's Student Information Repository System (SIRS). These counts are as of "BEDS Day" which is typically the first Wednesday in October. Available are enrollment counts for public and charter school students by various demographics for the 2018 - 19 school year. For nonpublic school enrollment data please see the Non-Public School Enrollment and Staff information on our Information and Reporting Services webpage.

ELMIRA CITY SCHOOL DISTRICT GRADES 3-8 ELA ASSESSMENT DATA

The grades 3-8 English Language Arts (ELA) and mathematics assessments measure the higher learning standards that were adopted by the State Board of Regents in 2010, which more accurately reflect students' progress toward college and career readiness. Data are available statewide and at the county, district, and school level.

Data available on this site are based on those reported by schools and districts to the State as of July 25, 2019 via the Student Information Repository System (SIRS). The New York State School Report Card 3-8 English Language Arts (ELA) and mathematics assessment data will be based on those data reported as of the final school year reporting deadline.

ELMIRA CITY SCHOOL DISTRICT GRADUATION RATE DATA 4 YEAR OUTCOME AS OF AUGUST 2019

Graduation Rate Data are reported for a 9th grade cohort, as of the 4th year of high school - August. The "Filter this data" function, below, provides the ability to display Graduation Rate Data of high school as of the 4th year - June, the 5th year - June and August, and the 6th year - June and August. For school years prior to 2018-19, 5th year - August and 6th year - August are not available.

Data is reported by educational institutions to the State Education Department throughout the school year and available for verification by districts until the close of the state data warehouse in August. District superintendents certify data is accurate in September. For the most updated information, please contact the school district.

Complete information on the types of diploma credentials, which can be earned and the criteria for each, see: [Diploma Requirements](#).

ELMIRA CITY SCHOOL DISTRICT GRADUATION PATHWAYS DATA 2019

The Board of Regents approved regulations establishing multiple, comparably rigorous assessment pathways to graduation for all students. The recently approved regulations recognize the importance of engaging students' interests in rigorous and relevant academic programs in the Arts; Languages other than English (LOTE)/Biliteracy; Career and Technical Education (CTE); Humanities; Science, Technology, Engineering and Mathematics (STEM); and Career Developmental Occupational Studies (CDOS). The revised regulation allows students to use a passing score on an approved pathway assessment or successful completion of program requirements for the CDOS credential toward meeting the assessment requirements for graduation.

Complete information on the types of diploma credentials which can be earned and the criteria for each.

Additional information on Graduation Pathways can be found on the Curriculum and Instruction site.

THIS DOCUMENT WAS CREATED ON: MAY 14, 2020, 11:43 AM EST

Form Due May 11, 2020

2020-2021 Salary Threshold =
\$141,000

In response to legislative efforts to encourage greater cost sharing in service provision and local government administration, we now provide a section for districts that share administrative staff to highlight these efforts for the upcoming school year. Each sharing district should identify in the form the other district(s) with which they will be sharing administrative staff for school year 2020-2021.

If you will be sharing a Superintendent, list the other district (or districts) in the text box. If you will be sharing other administrative staff required to be reported, please send an email to EMSCMGTS@nysed.gov indicating the title of the staff persons(s) as well as the other district(s) involved in the cost-sharing.

The salaries, benefits and other compensation reported in the form should reflect only the financial support or commitment that your district will be making. They should not reflect the total amounts budgeted to be paid by all participating districts over the school year.

Report Estimated Salaries in the Budget for the 2020-2021 School Year
