About Schooltool Parent Portal

REGISTER FOR PARENT PORTAL

The Schooltool Parent Portal is one of many ways to keep in touch with your child’s academic progress, and is available to all parents in the Elmira City School District. This service is intended to enhance communication between school and home.

The Parent Portal is a module of the Schooltool student information system used by the Elmira City School District, and it allows parents and legal guardians to view their child’s class schedule, grades, assignments, attendance record, discipline history, and contact information from nearly any device that can access the Internet. Teachers can be e-mailed directly through Parent Portal. Registration for a parent portal account requires:

- A valid email address
- A completed parent portal registration form:
  *Download the Parent Portal Registration Form Here on our website: (http://www.elmiracityschools.com/uploadeddocs/parentportalregistrationform.pdf)
  *A copy of this form is also included within this packet.
  *Return this form to your child’s school. Please allow up to 2 weeks for processing.

*Note: You only need to complete one registration form to view all children registered in your care.

Once your information has been verified and your account has been created, you will receive a password to access your account sent to your registered email address. Please ensure that you add elmiracityschools.com to your whitelist or allowed senders list in your email client to ensure you receive the email in your inbox.

To access Parent Portal, visit the Elmira City School District’s web site at www.elmiracityschools.com. From the home page, click on the “Parent Portal” Quick Link on the left side, and you can access a Quick Start Guide, Frequently Asked Questions, and more information about Parent Portal.

PARENT PORTAL FAQs

Do I need any special software to use parent portal?

To effectively access your Parent Portal account you will need:

- Computer or mobile device with Internet access - A minimum dial-up modem speed of 56Kbs - a slower connection will work but not as well.

- The company hosting the Parent Portal recommends using Internet Explorer 7 or 8 or Safari 3.0 or 4.0. Schooltool may still be accessible using unsupported operating systems and browsers (i.e., Firefox),
but there is no guarantee functionality, performance, or security if the minimum requirements are not met.

• Adobe Reader - This is a free document reader available for download on the web at:
  http://get.adobe.com/reader/
  *There are some reports that require the Adobe Reader to view or print.*

**How often do I need to fill out the parent portal application?**
You only need to fill out the application once to create the account. Younger siblings will become visible on the portal once they become school age and register for school. Accounts are carried over from year to year as long as you do not move out of the district.

**What happens if my email address changes?**
Please complete the Parent Portal Update Form by clicking on **Update Your Email Address** at the top of this page. Once your account change has been processed, your parent portal user name will be updated to reflect the new email address as well. You should allow two weeks to be notified at your new email address for the change.

**What happens if I forget my userID or password?**
Simply enter your email address, with no password, and click the "login" button. You will then be presented with the "Forgot..." link. Just follow that process to have your password emailed.

**How often is information updated in parent portal?**
Demographic, attendance and discipline information is updated in real time. Scheduling information becomes available on the date the change is scheduled to occur. For assignment information, you may want to contact your child's individual teachers to ask how often they update assignment information. Teachers can be contacted directly through the parent portal by viewing the child's schedule and clicking on the email icon next to the teacher's name.

**How do I add/change/correct my personal information including address or telephone number?**
Please notify your child's school for any such change of information.

**What if the parent portal reflects an incorrect grade for my child?**
You will want to contact your child's Guidance Counselor and/or Teacher.

How to access information about your child – THE STUDENTS TAB
Select your child by clicking on the blue arrow to the left of your child’s name and address. This will take you to your child’s basic information. At the top of this screen is basic information including name, birthdate, address, phone, grade, and homeroom. Please check the information to make sure it’s correct.

Underneath the basic information are the various tabs available to you. The first tab will always be the Contacts tab. This is your child’s contact information. It lists you and any other individual who is a contact for your child. Underneath the contacts are any siblings your child has, with their age, school and grade.

Note the icons at the far right of each contact’s name. Below is a brief description of each one:

- **The House Icon** indicates the primary contact for the child.
- **The Paper/Envelope icon** means that this contact can receive district mailings.
- **The Green Up Arrow** indicates that this contact is allowed to pick up the child.
- **The Computer Monitor** means that this contact has a Parent Portal account.

The green text listed below your child’s photo is the “Locator” and will reflect where your child is throughout the day.
THE SCHEDULE TAB
The Schedule tab shows you your child’s schedule. The default is the Standard View of the schedule. You may also choose the Grid View, which puts the information in a grid.

THE GRADES TAB
The Grades tab shows your child’s grades for each class based on the “view” you’ve selected. Choose the different views from the drop-down menu next to the School Year menu.

Viewing options are Marking Period Grades, Progress Interval, Marking Period Average, Assessment Grades, and Final Grades. Here’s what each option means:

**Marking Period:** Shows the Marking Period grades for the selected marking period – if the marking period is completed. This is the grade that appears on the report card. If you want to see your child’s current average, choose “Marking Period Average” instead. To choose a marking period, use the dropdown menu to the right of the View menu (MP1, MP2, etc.) Again, there will only be grades listed in this view if the marking period has been completed.

**Progress Interval:** Shows the student’s Progress Report grades for selected Progress Interval.

**Marking Period Average:** Shows the student’s average for each class in the current marking period. This is your child’s average as of right now – for grades that the teacher has entered up to now.

**Assessment Grades:** Shows any state or local assessments that a student has taken for a selected school year.

**Final Grades:** Shows the final grades for a specific school year.

**Note:** You may e-mail your child’s specific teacher by clicking on the envelope icon (✉️) to the left of each teacher’s name.
**THE ASSIGNMENTS TAB**

The final tab available to you is the Assignments tab. This tab shows all assignments a teacher has entered in their grade book for whatever year, marking period, and course you have selected from the available dropdowns along the top:

![Assignments Tab Image]

When you hover over each of the column headers, the cursor will change into a hand, meaning that you can sort that column by clicking once on the column header. You will probably sort by course name or teacher name most often.

If you do not see a score for a student, this means that the teacher has not yet entered one. Please give the teachers a reasonable amount of time to enter their grades. Keep in mind that things like papers/reports/projects may take longer to grade than other assignments and the teacher may need a little more time to grade and enter these scores.

If a teacher is using attributes and has assigned one to a particular assignment for your child, you will see the attribute in brackets [ ]. When you hover over the attribute, you will see the title and the point adjustment, if any. When an attribute with a point adjustment is used, you will see your child’s actual score reflected in parentheses.

If you see any incorrect data entered on your child/children in the Schooltool Parent Portal, please contact your child’s school. If you have any questions or concerns regarding Parent Portal, please notify your child’s school principal.
