## **REVENUES**

School Districts receive money from several sources. These sources are:

1. **STATE AID** –The budget is based on the State’s 2016-17 budget. State aid for the 2016-17 budget year is expected to be \$3,460,412 more when compared to the 2015-16 budget.
2. **OTHER INCOME** – Any income received by the School District other than State Aid, Fund Balance or Tax Levy is included under this heading. Examples of other income would be; BOCES revenue, interest earnings, payments in lieu of taxes, refunds of prior year’s expenses, gifts, rentals, fees, tax penalties, Medicaid reimbursements, and athletic event gate receipts.
3. **RESERVES** – The District maintains Reserve Funds established in accordance with guidelines established by the Comptroller of the State of New York.
4. **FUND BALANCE** – Funds which are budgeted but unexpended at the end of a budget year, and revenues which are realized in excess of those budgeted for the year, are available at the end of one fiscal year to be carried forward as fund balance.
5. **TAX LEVY** – This is the amount to be raised through local property taxes. The Board of Education desires to keep any increase in the levy as low as possible. For the 2016-17 school year, there will be a 1.5 % increase to the tax levy set by the Board of Education in September 2016 for the 2016-17 school year.

**SUMMARY 2016-17  
GENERAL FUND REVENUES**

The two main sources of revenue are the local tax levy and aid from the State of New York. For a number of years, the State has provided about 70 percent of the total district revenues. This year the estimated amount of aid totals \$87,549,325. This means that the local taxpayer will be paying approximately 27 percent of the district expense, while the State's contribution is 71 percent. Other local projected revenues of \$2,563,605 will also be committed to fund the new budget. This other revenue and fund balance represents 2.0 percent of the budget.

Instructional Expenditures for General Education are K-12 expenditures for classroom instruction (excluding Special Education) plus a proration of building level administrative and instructional support expenditures. These expenditures include amounts for instruction of students with disabilities in a general-education setting. District expenditures, such as transportation, debt service and district-wide administration are not included.

The pupil count for General Education is K-12 average daily membership plus K-12 pupils for whom the district pays tuition to another school district. This number represents all pupils, including those classified as having disabilities and those not classified, excluding only students with disabilities placed out of district. Pupils resident in the district but attending a charter school are included. For districts in which a county jail is located, this number includes incarcerated youth to whom the district must provide an education program.

Instructional Expenditures for Special Education are K-12 expenditures for students with disabilities (including summer special education expenditures) plus a proration of building-level administrative and instructional support expenditures. District expenditures, such as transportation, debt service and district-wide administration are not included.

The pupil count for Special Education is a count of K-12 students with disabilities for the school year plus students for whom the district receives tuition from another district plus students for whom the district pays tuition to another district. Students attending the State schools at Rome and Batavia, private placements and out-of-state placements are included.

Instructional Expenditures Per Pupil is the simple arithmetic ratio of Instructional Expenditures to Pupils. The total cost of instruction for students with disabilities may include both general- and special-education expenditures. Special-education services provided in the general-education classroom may benefit students not classified as having disabilities.

Total Expenditures Per Pupil is the simple arithmetic ratio of Total Expenditures to Pupils. Total Expenditures include district expenditures for classroom instruction, as well as expenditures for transportation, debt service, community service and district-wide administration that are not included in the Instructional Expenditure values for General Education and Special Education. As such, the sum of General Education and Special Education Instructional Expenditures does not equal the Total Expenditures.

INFORMATION ABOUT STUDENTS WITH DISABILITIES (2014 - 15)

Commissioner's Regulations require reporting students with disabilities by the percent of time they are in general education classrooms and the classification rate of students with disabilities. These data are to be compared with percentages for similar districts and all public schools. The required percentages for this district are reported below.

STUDENT PLACEMENT (PERCENT OF TIME INSIDE REGULAR CLASSROOM)

The source data for the statistics in this table were reported through the Student Information Repository System (SIRS) and verified in Verification Report 5. The counts are numbers of students reported in the least restrictive environment categories for school-age programs (ages 6-21) on BEDS Day, which is the first Wednesday of the reporting year. The percentages represent the amount of time students with disabilities are in general-education classrooms, regardless of the amount and cost of special-education services they receive. Rounding of percentage values may cause them to sum to a number slightly different from 100%.

SCHOOL-AGE STUDENTS WITH DISABILITIES CLASSIFICATION RATE

THIS SCHOOL DISTRICT	SIMILAR DISTRICT GROUP	NY STATE
12.6%	12.5%	14.3%

This rate is a ratio of the count of school-age students with disabilities (ages 4-21) to the total enrollment of all school-age students in the school district, including students who are parentally placed in nonpublic schools located in the school district. The numerator includes all school-age students for whom a district has Committee on Special Education (CSE) responsibility to ensure the provision of special-education services. The denominator includes all school-age students who reside in the district. In the case of parentally placed students in nonpublic schools, it includes the number of students who attend the nonpublic schools located in the school district. Source data are drawn from the SIRS and from the Basic Education Data System (BEDS).

Form Due May 9, 2016

2016-2017 Salary Threshold =  
\$130,000

In response to legislative efforts to encourage greater cost sharing in service provision and local government administration, we now provide a section for districts that share administrative staff to highlight these efforts for the upcoming school year. Each sharing district should identify in the form the other district(s) with which they will be sharing administrative staff for school year 2016-2017.

If you will be sharing a Superintendent, list the other district (or districts) in the text box. If you will be sharing other administrative staff required to be reported, please send an email to [EMSCMGTS@nysed.gov](mailto:EMSCMGTS@nysed.gov) indicating the title of the staff persons(s) as well as the other district(s) involved in the cost-sharing.

*The salaries, benefits and other compensation reported in the form should reflect only the financial support or commitment that your district will be making. They should **not** reflect the total amounts budgeted to be paid by all participating districts over the school year.*
